**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We chose a local internet service provider using AT&T's last-mile broadband infrastructure because they were the only one to guarantee a neutral internet access in our area.

AT&T does not provide that, and also enforces traffic quotas that are highly out of touch with the cost of maintaining the infrastructure for it.

We highly value having a choice because it allows us to decide what we want in an internet provider, instead of the provider deciding that on our behalf.

Please support laws and regulations that encourage competition among providers. Internet providers have local mono (or duo) polies way too often in the US.
